REQUIRED SUBMITTALS FOR FIREWORKS DISPLAY PERMITS

- 1. Permit Fee
- 2. Complete fireworks display permit application
- 3. Copy of the lease agreement or written permission to use the land of the display site for intended purpose
- 4. Copy of the public liability insurance in the amount of \$1,000,000.00
- 5. Copy of the invoice from the supplier of fireworks to be fired. This must show the number of pounds of products and the size and type of the shells to be fired.
- 6. Copy of Colorado Division of Fire Safety licenses for all Display and Pyrotechnic operators working at the site.
- 7. Copy of Pyrotechnics Guild International Certificate that indicates at least one site operator has successfully completed the Display Fireworks Shooters Safety Certification Program.
- 8. A letter from the company providing information on their personnel involved with the display, including their training and qualifications.
- 9. A scale drawing of the display site showing the setbacks to property lines and all nearby structures or exposures. This drawing must also include:
 - a. The placement and description of every pyrotechnic effect
 - b. The location of all designated crowd areas, their respective barriers and security positions (12 feet minimum between sets and persons).
 - c. The location and description of on-site explosives control equipment and storage containers.
 - d. The location of explosives mixing and preparation areas.
 - e. The building floor plan showing all exits and exit passageways, stage floor, and ceiling plan as well as vertical relief.
 - f. The location of fire extinguishers
 - g. The location of the nearest phone or radio that can be used by the display staff to call for emergency assistance during the hours of operation.
 - h. The building site plan showing all vehicle accesses, planned parking areas, traffic barriers, adjacent streets, and driveways, etc.
- 10. The lead pyrotechnist must meet with a fire department inspector at least one day prior to the event, at the display site, to discuss:
 - i. The security plan for the pyrotechnic materials
 - j. The display and procedures at the site
 - k. Possible test demonstrations
 - l. The building evacuation plan
 - m. Other fire and life safety issues

SPECIAL EFFECTS AND PYROTECHNICS GENERAL **REQUIREMENTS**

1. All pyrotechnic devices shall be electrically controlled by a control panel. This panel shall be either AC or DC current not exceeding 12 volts and equipped with a lock out power switch device.
2. The preparation of all pyrotechnic devices shall be in an area away from all ignition sources and where smoking is prohibited. Devices with exposed powder or pyrotechnic material shall not be filled until just prior to use.
3. Pyrotechnic materials shall be measured for each device with a measuring tool. Loading of these devices may be required to be done in the presence of a firefighter.
4. Laser light shows shall conform to the requirements as set forth in the Food and Drug Administration guide CFR 1040.40
5. Examples of prohibited items:
 - a. Roman candles
 - b. Comets or other aerial devices
 - c. Hand held devices
 - d. Items that come into contact with its flame and/or discharge effect contacts the ceiling, curtains, or any other prop or set pieces.
 - e. Items that go over the audience

EXCEPTION: Laser light shows. Laser light beams must not drop lower than 12 feet above the audience.
 - f. Attached covers on concussion mortar tubes.
6. At least two (2) fire extinguishers with a minimum of 2A 10B:C rating shall be required. Extinguishers shall be located as determined by the Life Safety Division.

NOTICE: SELLING ANY PYROTECNICH PRODUCTS, FAILING TO COMPLY WITH ANY ORDER OF A FIRE DEPARTMENT OFFICIAL, FAILING TO SUBMIT ANY REQUIRED DOCUMENT, FALSIFYING OR WITHHOLDING ANY INFORMATION ON THIS APPLICATION, OR FAILING TO GET THE REQUIRED DOCUMENTS WHEN REQUIRED, MAY RESULT IN THE IMMEDIATE REVOCATION OF THIS PERMIT AND CANCELLATION OF THIS DISPLAY. A SUMMONS MAY BE ISSUED AND/OR CONFISCATION OF PRODUCTS MAY RESULT.
